

EARTHING ROD FOR SOLAR ROOFTOP & OTHER APPLICATION

ISO 9001:2015, ROHS, CE, IEC 62561, Test Reports

- With an extensive experience in the grounding & bonding system, **KSQUARE ENERGY** has designed a Solar Earthing Kit specifically for Photovoltaic Systems. This Kit comprises a solid rod of steel along with carbon based earth enhancement compound to improve conductivity in every soil condition with a clamp to make connection with strip conductor.

COPPER BONDED EARTH ROD

- Uniform copper plating and high corrosion resistance.
- Purity of the copper is 99.9%
- Low Magnetic conducting rate and higher anti-tension
- Good tensile strength.

TECHNICAL DATASHEET

SR NO	MODEL NO	OUTER DIA (MM)	LENGTH (MM)	UNIFORM COPPER COATING (UM)	APPLICATION
1	KE-01	14	1500	252	RESIDENTIAL & SOLAR ROOFTOP INSTALLATION
2	KE-02	17	1500	252	RESIDENTIAL & SOLAR ROOFTOP INSTALLATION
3	KE-03	25	2000	252	BODY EARTHING OF INDUSTRIAL EQUIPMENT
4	KE-04	50	3000	252	TRANSFORMER & GENERATOR EARTHING
