

Quality Products for **SOLAR PROJECTS**

www.ksquareenergy.com

WHO WE ARE

Ksquare Energy Pvt. Ltd. is a globally recognized leading solar energy company based in Gujarat. We are energy solution providers specialized in manufacturing solar array junction box and comprehensive EPC solutions. The Company offers Design, Detailed Engineering, Procurement, Installation and Commissioning services under Turnkey Solar EPC Solutions for Utility Scale Ground-mounted, Rooftop and Distributed, Solar Parks, CAPEX as well as OPEX projects.

The highly skilled and dedicated EPC Team at Ksquare Energy assures the completion of each solar plant from concept to commissioning including its operation and maintenance for the complete lifespan of the plant.

WE ARE NOW INTO B2B BUSINESS

Ksquare Energy is now looking to help solar energy companies by providing quality products at most affordable prices for their solar projects.

We are also into manufacturing of the ACDB and DCDB Box from 1Kw to 5000kw. Also we are into manufacturing of the Earthing Kit for the commercial and industrial projects for solar.

Our company has executed many solar projects for our prominent clients like Gujarat Energy Development Agency, Ministry of New and Renewable energy and Swaminayan Gurukul Projects and many residential and commercial projects.

The company has three years of experience with 100 plus projects successfully completed wide India.

WHY KSQUARE ENERGY?

- Experience of 5+ Years into Solar Industry
- More than 250 Projects Executed
- In House Manufacturing of Products
- Best in Class Products Sourced from Reputed Suppliers
- Competent Team for Faster Service

VISION

There is no doubt that humanity is facing climate change on many fronts. Many governments, organizations, companies and individuals are trying to decelerate and potentially even reverse the process of global warming that is threatening the world as we know it today. These pioneers are looking to emerging green technologies, practices, and social transformation in order to succeed in the battle against climate change.

Ksquare Energy aims to contribute to this battle, through the promotion of solar energy. We believe that with the need for change, humanity will surface stronger and more resourceful in the future. Ksquare Energy envisions that the world will one day predominantly use renewable energy sources, breaking the chains of our addiction to fossil fuels and changing our destructive habits in energy and resource consumption. We envision a world where energy management will be smarter and more efficient, which in combination with new technologies, will assure our wellbeing and will lead the human race to new frontiers.

Our vision is to offer a simple, universally acceptable, easily maintainable system of green energy to humanity at large.

MISSION

- We Ksquare Energy aims to be one of the India's leading renewable energy company providing the most innovative clean energy solutions to our clients. We will greatly accelerate the adoption of solar energy systems. This will give our customers, our communities, and our nation clean, abundant, low-cost, distributed, and renewable energy.
- To execute and operate our projects efficiently and maintain the highest standards of quality, safety and environmental sustainability.
- To foster a culture of trust, collaboration and performance to achieve our business goals and be an employer of choice.
- To adhere to the highest standards of corporate governance and be a responsible corporate citizen.
- To operate ethically and fairly at all times while continually advancing stakeholder interests.

INFRASTRUCTURE AND FACILITIES

With state of the art manufacturing facility located at Changodar, Ahmedabad we promise you to deliver the best of class products for your solar projects. Our factory is spread across 4500 Sq. Feet with latest machineries, technology and skilled staff. Every product manufactured is passed through stringent quality check procedures so as to give you the perfect product quality.

Ksquare Energy Pvt. Ltd. is ISO Certified and also follows the norms laid down by CE and ROHS Certification.

LIST OF MACHINERIES AND FACILITY:

- HV Tester
- Hardness Tester
- Gauge Meter
- Coating Thickness Meter
- Vernier Calliper
- Micro Meter
- Micron Meter
- In House Testing Lab
- R&D Centre

ACDB – DCDB (RESIDENTIAL PROJECTS)

1-3.5 KW DCDB

4-7 KW DCDB

8-10 KW DCDB

**1-5 KW SINGLE
PHASE ACDB**

**5-10 KW THREE
PHASE ACDB**

“QUALITY PRODUCTS THAT
SPEAKS ABOUT ITSELF!”

EARTHING KIT (RESIDENTIAL SOLAR PROJECT)

SINGLE SPIKE EARTHING KIT

- 3 Nos - Earthing Rod
(14mm Dia, 1.5 Mtr Length, 250 Micron Copper Coating)
- 1 Nos - LA
(1 Mtr Length, 14mm Dia, Without Spike)
- 1 Nos - 15 Kg BFC Bag
- 1 Set- Mounting Base & SS-304
- Nut-Bolt Set

FOUR SPIKE EARTHING KIT

- 3 Nos - Earthing Rod
(14mm Dia, 1.5 Mtr Length, 250 Micron Copper Coating)
- 1 Nos - LA With Spikes
(Brass Material) (1 Mtr Length, 14mm Dia)
- 1 Nos - 15 Kg BFC Bag
- 1 Set- Mounting Base & SS-304
- Nut-Bolt Set

**CUSTOMISED EARTHING KIT AVAILABLE AS PER
REQUIRMENT ON REQUEST.**

Solar Cables are referred as a single conductor and smaller in diameter. This market is segmented into copper and aluminium alloy and currently copper-based cables are in maximum demand which is a reflection of its several advantages over aluminium alloys such as flexibility, low resistivity, stability, strength and better corrosion resistance.

Solar Cables are designed for connecting PV Power Supply Systems. They are dedicated to the PV system direct current side with a nominal D.C. voltage of a 1.5 kV. These cables can be used indoor & outdoor for flexible and fixed installations with high mechanical strength in extreme weather conditions. Solsquare Solar Cables are designed to withstand the environmental conditions that arise in any Fixed, Mobile, Roof or Architecturally Integrated Photovoltaic Installation.

BEST IN CLASS CABLES FOR YOUR SOLAR PROJECT

PRODUCT CONSTRUCTION :

- Flame Retardant, Low Smoke
- Max Conductor Temperature range 40°C to +120°C
- UV Resistant & Weather Resistant
- Expected Life 30 Years

INSULATION :

Crosslinked Halogen Free & Flame Retardant Insulation

CONDUCTOR :

Flexible Electrolytic Tinned Fine Copper Strands Acc. to IEC 60228, Class 5

OUTER SHEATH :

Crosslinked Halogen Free & Flame Retardant

APPLICATION :

Solar Cables are intended for use in photovoltaic power supply systems and similar applications as free hanging, movable, fixed installation and buried in ground in constructional covered systems. The cables can be used indoor, outdoor, in hazard explosion areas, in industry and agriculture. They are suitable for applications in equipment with protective insulation. These cables are suitable for permanent outdoor longterm use under variable and harsh climate conditions.

SINGLE CORE FLEXIBLE CABLE
(2.2, 4 & 6 SQMM)

2 CORE FLEXIBLE WIRE
(2.5,4 & 6 SQMM)

4 CORE FLEXIBLE CABLE
(2.5, 4 & 6 SQMM)

CUSTOMISED SOLAR ACDB FOR INDUSTRIAL PROJECTS

Manufacturer of a wide range of ACDB which include 3 Phase ACDB with NVR Protection & also customisation available like RYB Indication, On/Off/trip Indication, Multi-Function Meter, Earth Leakages fault protection.

AC DISTRIBUTION & AC COMBINER PANEL

ACDB WITH NVR PANEL

SOLAR METER PANEL / TVM PANEL

DC DISTRIBUTION BOARD FOR INDUSTRIAL SOLAR PROJECTS

Manufacturer of a wide range of DCDB from 2 in 2 out to 24 in 24 out Also combiner DCDB like 2 in 2 out to 24 in 1 out for 1000 VDC & amp 1500 VDC System
